

CLEANER, SMARTER, ENVIRONMENTALLY RESPONSIBLE.

We take our commitments to corporate citizenship and social responsibility seriously. Through our partnerships and corporate efforts, we're consistently working hard to uphold one of our core principals of working in harmony with the environment we all share.

ECOSYS® Technology

Reduce landfill waste with long-life consumables and separate drums that don't need replacing when toner is depleted.

Eco-Friendly Packaging

Packaging designed to minimize space and maximize the use of biodegradable materials.

Environmental Standards

Our products meet the high standards of the U.S. Environmental Protection Agency's (EPA) ENERGY STAR® program and meet EPEAT criteria.

Energy Saving Measures

Power-Saving Mode and lower toner fusing temperatures help devices run more efficiently and last longer.

ECO footPRINT® Toner Recycling Program

Recycle depleted and waste toner containers, at no cost. Through our partnership with Close the Loop, 100% of recycled containers are repurposed into things like pens, park benches or asphalt.

Equipment Disposal Compliance

Kyocera has partnered with MRM for equipment collections that meet recycling regulations.
